biography

Rosemary has been playing music since age 13. Having grown up in Nashville, TN, she has had the fortune of playing out in local clubs and venues for some time now. She has been involved with numerous musical projects, many of which can be found and downloaded through Black Label Empire (Andy Bodean and the Bottom Boys, Communist, Tim Chad and Sherry, Ultra Vulgar, etc).

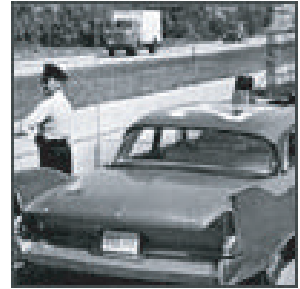

Rosemary partnered up with master engineer Patrick Himes (who has numerous credits and accolades to his name) back in 2003 and began working on numerous singles and other projects. The two continue to record together at every possible opportunity. BLE anticipates a full-length record to come out from the duo sometime in early 2006. The album will reportedly be released on both CD and vinyl.

At the moment, BLE has one single and one short EP available for purchase, respectively titled "The Floater" and "The Fabulous Life Of..."

Rosemary and Patrick tackle everything together on the recordings they produce. Generally, speaking, Rosemary writes all lyrics and music initially. Patrick then comes behind her and "cleans up [her] mess," as Rosemary puts it. For the most part, all parts are played by both Rosemary and Patrick, with the occasional guest appearance. The two do everything themselves, including writing, recording, engineering, producing, etc.
